WORK EXPERIENCE

IT SUPPORT / IT OPERATIONS - PINOY ONLINE TRAVEL BIZ
[DATE TO UPDATE] - PRESENT

- Provide day-to-day IT support and troubleshooting for users, workstations, software, peripherals, and business tools.
- Troubleshoot Windows, hardware, application, connectivity, and other technical issues.
- Support travel-business systems and booking workflows, including investigation of booking and ticketing issues.
- Coordinate technical concerns with external platform support teams and document resolutions.
- Support business users with system access, account-related concerns, and technology-related operational issues.

SELECTED IT SYSTEMS & AUTOMATION PROJECTS
Internal / Portfolio Projects

- Built an IT Help Desk ticketing workflow using Google Forms, Google Sheets, and Google Apps Script with automated ticket numbering, status, priority, concern type, and email notifications.
- Developed an IT Asset Management System concept covering employees, laptops, assignments, returns, asset history, availability, accounts, and dashboard reporting.
- Created laptop assignment and return workflows with automated asset IDs and inventory status tracking.
- Developed a responsive personal portfolio using HTML, CSS, and JavaScript and deployed it through GitHub and Vercel.
- Currently learning n8n, webhooks, and AI automation concepts for future workflow and systems development.
